Subject: Coptic Disunification

Coptic has been discussed before and the sense of the committee was apparently that it should be dis-unified from Greek, but no resolution was ever taken. Perhaps this Coptic question should be put on the table and a formal resolution taken at the upcoming UTC meeting.

L2/00-411 <http://www.unicode.org/L2/L2000/00411-coptic.htm>

and this:

WG2 N1658 (1997-12-08) <http://std.dkuug.dk/JTC1/SC2/WG2/docs/n1658.htm>

which was formally introduced as:

L2/98-022 Proposal to encode Coptic in ISO/IEC 10646

but there is no current on-line document in the L2 doc registry.
